# ABOUT

TREDDY MAKES IT POSSIBLE TO **EARN MONEY BY PROVIDING LIQUIDITY TO THE CRYPTOCURRENCY MARKET**

## Mission

To provide liquidity to the cryptocurrency market

## Technology

An Ubuntu server in the Amazon Cloud works with the Binance exchange in real time. The robot is written in C and Ruby, uses Redis for data storage

## Product

By providing liquidity, we allow traders to trade at better prices

# VALUE

TREDDY MAKES IT POSSIBLE TO **EARN MONEY BY PROVIDING LIQUIDITY TO THE CRYPTOCURRENCY MARKET**

**Focus on safety —**

multilevel system of funds protection, continuous system audit

**Conservative, yet highly profitable strategy —**

stable & reliable projected profit

**Not a single unprofitable month**

since the launch of the current bot in October 2019

**Our bot can create abnormal return**

Biggest monthly investment return amounted to 10.6%

**Transparent statistics**

Access to a Telegram bot showing period statistics for any time

**Monthly reports**

We show details reports about bot's actions as well as general market overview

# APPROACH AND TECHNOLOGY

OUR PRODUCT IS A GROUP OF BOTS THAT  
TRADE CRYPTOCURRENCY USING MARKET  
MAKER STRATEGIES

**High Operating Speed**

Because Of The Optimised Algorithms

**Redis**

Highly Scalable Database

**Low Exchange Fees**

Due To Big Transaction Volume

**Telegram Bots**

Enabling You To Keep Your  
Finger On The Pulse

**C & Ruby**

Due To Big Transaction Volume

**Binance**

Enabling You To Keep Your  
Finger On The Pulse

WITH TREDDY TECHNOLOGY, **YOUR MONEY  
WORKS FOR YOU**

WE MANAGE MONEY AND GET PROFIT

BTC

USD

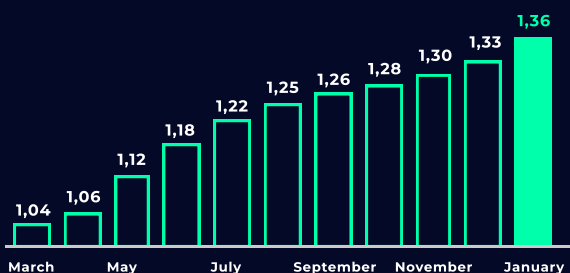

Altcoins

# WITH THE AUTOMATION OF TRADING ON THE PLATFORM, THE PROFITABILITY REACHES >30% PER YEAR

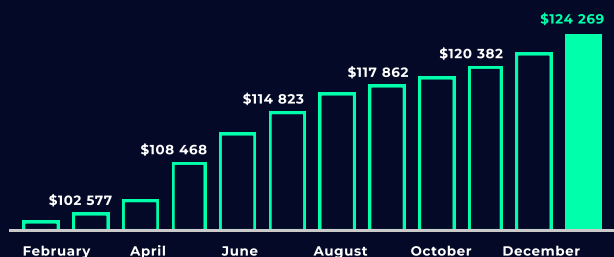

12 MONTHS OF INVESTMENTS  
ARE USED AS AN EXAMPLE

## Dynamics With 1 BTC Investment

BTC yield was 36.18% or 0.36 BTC

## Dynamics With \$100K Investment

The yield in USD was 24.26% or 24.268 USD

# WE OPTIMIZE COSTS TO DRIVE CONSISTENT PROFITS

## Expenses:

Servers

Support for low trading fees

Use of financial instruments

Other expenses (office, employees, etc.)

## Expenses:

The percentage of profit is floating and depends on such factors as the volume of trading in the market and market behavior. Also Treddy employees are constantly improving the robot in order to increase profitability.

# SECURITY

**WE ANALYZE RISKS AND MITIGATE THEM  
AT THE EXPENSE OF OUR STRENGTHS**

**Hacker attacks on Binance**

Binance has a fund to which it deducts a percent of its profits every month that compensate losses in case of an attack. The maximum possible damage – zero profitability of the robot

**Hacker attacks on accounts «Treddy» to withdraw money**

Treddy has several secure devices that generate keys disconnected from the Internet and wireless networks. Their absence makes the withdrawal of funds impossible.

**Abnormal market behavior due to trading, where robots trade at a loss**

The maximum loss for a floating day in this case is 0.5%, after which trading stops. The loss is offset by previous positive days

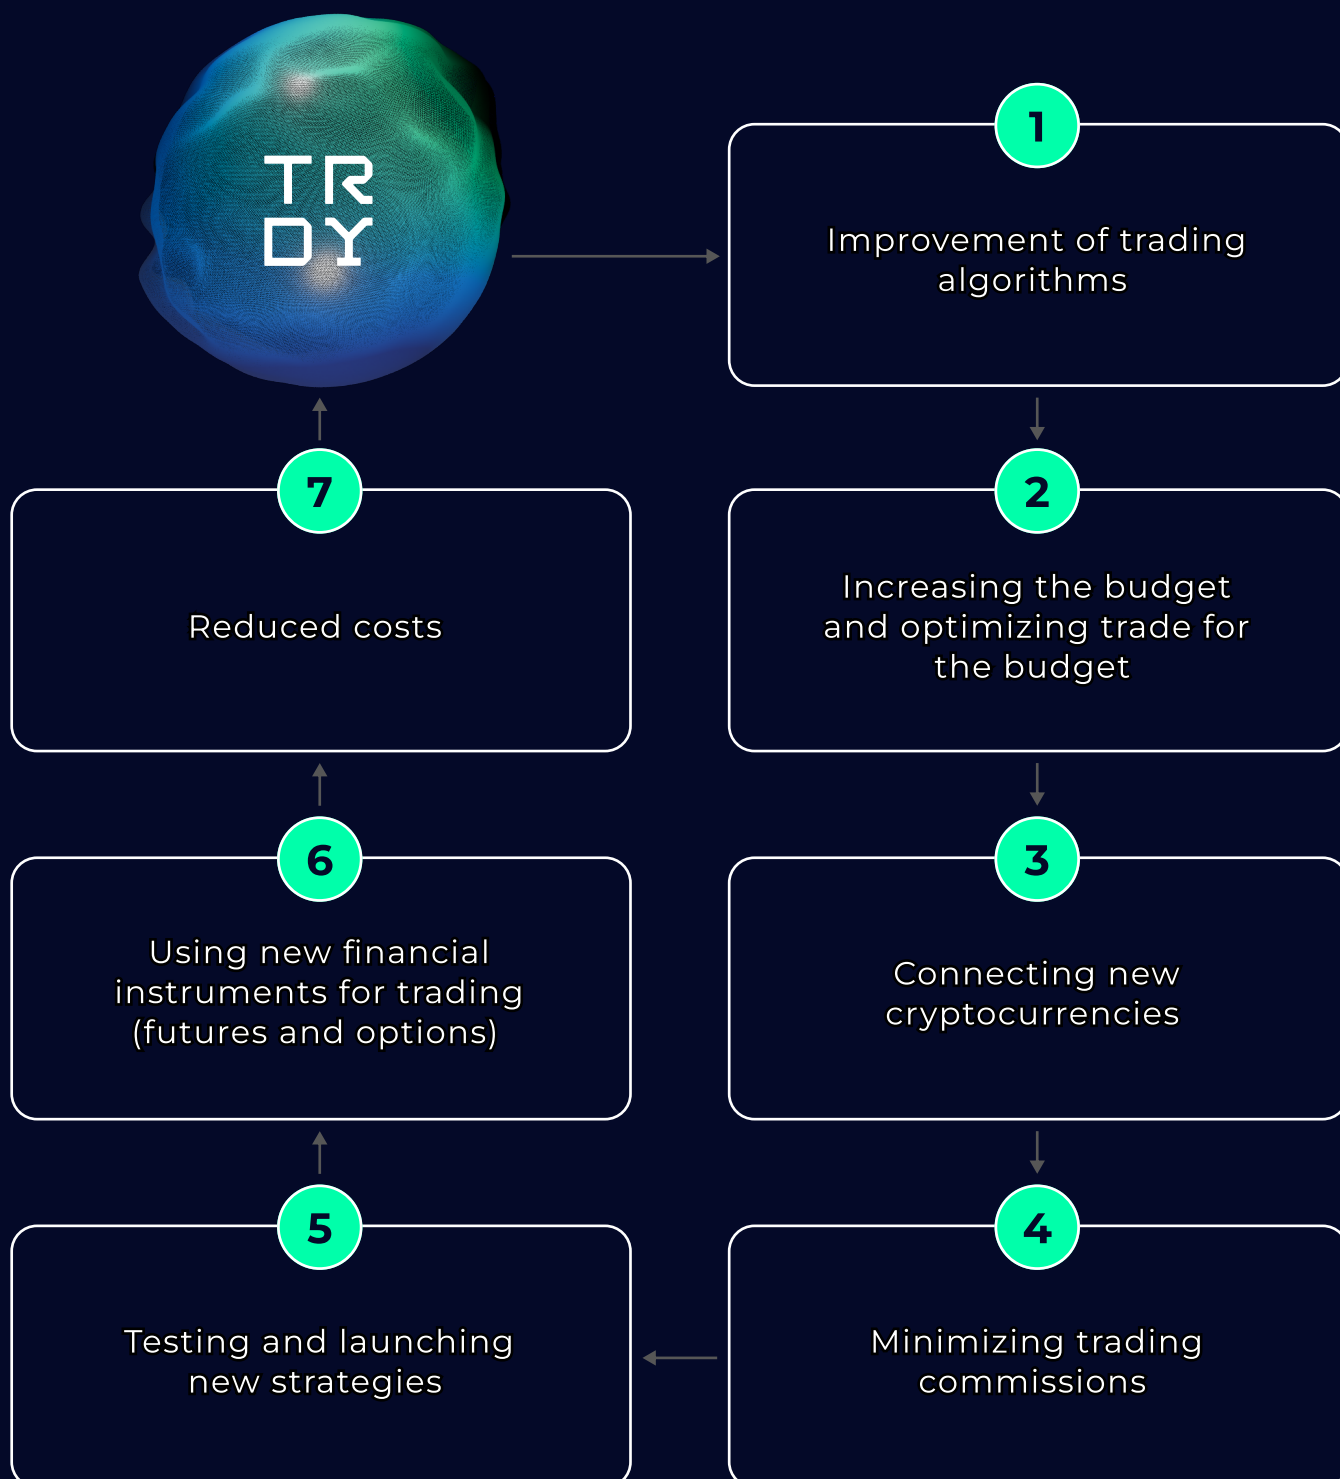

**Other risks**

Treddy has its own fund to which it allocates part of the monthly profit, and from this fund Treddy compensates for losses

# GROWTH

WE HAVE DEVELOPED A STEP BY STEP  
STRATEGY OF FUTURE DEVELOPMENT

# TEAM X PARTNERS

## OUR PARTNERS

We work with trustworthy cryptocurrency trading platforms

## WE ASSEMBLED THE TEAM OF EXPERTS

**Dmitriy Gromyko**  
**50% shares**

- A degree in robotics and complex automation
- Developed a high-load dating app – TopFace
- Founded GetTable, an online restaurant table reservation service
- Left the company to develop his own project Treddy

**Nikolay Nazmov**  
**50% shares**

- A degree in robotics and complex automation
- Worked at ivi.ru (the largest online cinema in Russia) as a product-manager
- Since 2013, he has developed and owned mobile applications for social networks (Instagram, Facebook, etc.) that was highly recommended app in the top US AppStore with an audience of 30 million users
- Developed algorithms for trading in foreign exchange markets since 2010

WE WILL BE HAPPY  
TO TELL YOU MORE  
ABOUT THE PROJECT
